## MAKE YOUR OWN POM-POM SHEEP

These pom-pom sheep are fun to create with just a few materials. Children of all ages love putting this fluffy, little sheep together! If you are making more than one pom-pom sheep, why not hang the whole flock together to form a sheep mobile?

### You will need:

- Wool of any colour (we are using white)
- Card or thick paper
- The pom-pom printed sheet (in this document)
- Scissors
- Cotton (optional)
- Glue or sticky tape
- Pen or pencil

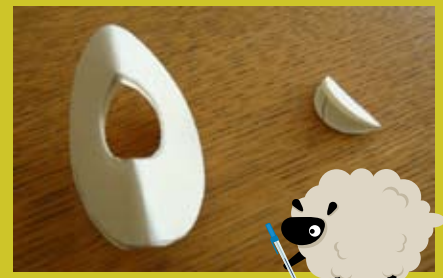

MAKE YOUR  
OWN WOOL  
POM-POM  
FLOCK!

ONE

Roughly cut out two cardboard circles with a smaller hole in the middle of each circle. Bending the disks might help when cutting out the inside circle. Lay both circles together. Remember, the bigger your circles are, the bigger your pom-pom will be and the more wool you will need.

TWO

Wind the wool yarn closely round the circles. Wrap the first round quite tightly and hold the loose end in place with your fingers until it is secure. Continue to wind the wool around and around the circles. Try to keep the wool even without leaving gaps.

THREE

Carry on threading the wool in and out of the middle hole until the circles are completely covered. The end should not need securing but can be tucked behind another strand to keep it out of the way.

FOUR

Put the scissors in between the two circles of card and snip open the wound thread or yarn around the outer edge.

FIVE

Slide thread or a length of wool between the two card circles. Tie and knot it firmly around the wool. Once secure, remove the card discs by cutting or sliding them out.

SIX

Fluff your pom-pom and trim off any uneven threads so that you have a nice round ball.

Cut out the face, legs and Union Jack from the sheet provided and stick in place with tape or glue. A thread can be added if you intend to hang your sheep up.
