## MAKE A WOOLLY SHEEP MASK

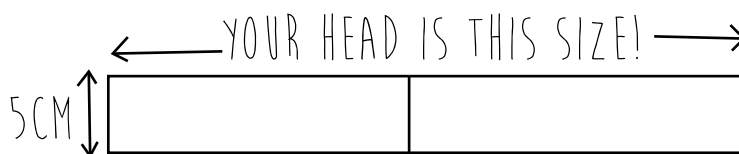

### You will need:

- Card
- Coloured pencils
- Glue
- Tape measure
- Wool or cotton wool
- Scissors
- The sheep mask template

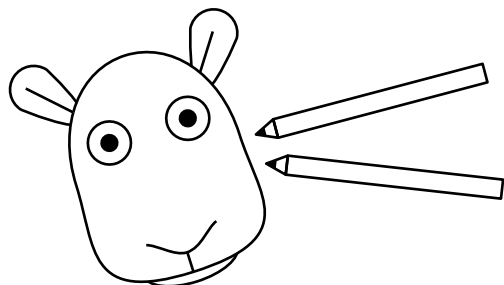

**1.** Use the tape measure to measure all the way around the top of your head. It might be easier to ask someone to help you to do this bit! The measurement you take will be the length of the band you need so you can wear the mask.

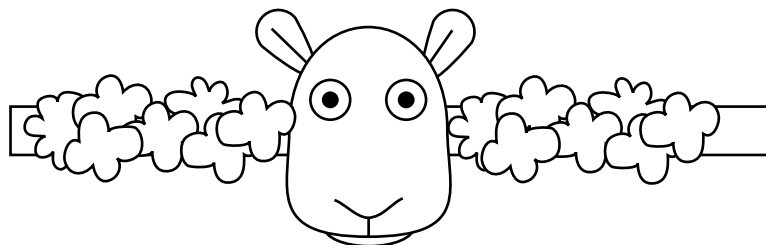

**2.** Cut out a strip of card a few centimetres longer than the size of your head (so it can go on and off easily) and about 5cm wide. If you don't have any card long enough for one strip you could make two strips of equal size and stick them together.

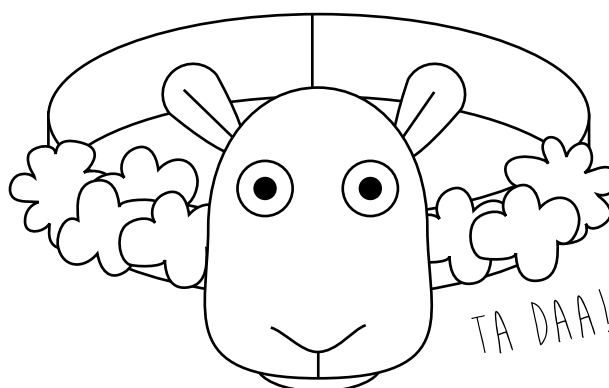

**3.** Cut out the face template and colour it in however you like. You might like to glue the mask template to a sheet of card to make it stronger.

**4.** Stick the face on to the middle of the headband and then decorate with wool or cotton wool to create a woolly sheep! Leave the ends clear.

**5.** Stick the clear ends together to make your headband. Your woolly sheep mask is now ready to wear!

## MAKE A WOOLLY SHEEP MASK

Sheep mask template. Cut out this face to use on your woolly sheep mask.

TIP: CUT EYE HOLES IN THE MASK WITH SCISSORS IF IT COMES OVER YOUR FACE!
